Institutional Best Practices

Best Practice I:

Encouraging Physical Fitness and Mental Well-being

Objective

The objective is to enhance physical fitness and mental well-being through a variety of sports activities and mental health programs. This initiative underscores our institution's commitment to foster the overall wellness of our students.

Context

Our institution aims to provide a diverse platform for students to improve both their physical and mental health. This is achieved through a combination of sports activities and mindfulness programs that are integrated with the academic curriculum ensuring holistic development.

Practice

A wide range of sports activities are offered to cater to the diverse interests and needs of our student community. Whether students prefer team sports like cricket, basketball, football, hockey or volleyball or individual activities such as running, yoga, badminton or athletics; there is something for everyone. This variety ensures that students can choose activities that align with their personal preferences and skill levels, promoting inclusivity and active participation. Additionally, through collaborative events, team-building exercises and student-driven initiatives, we encourage students to interact and foster a sense of community and belonging.

Challenges

Our objective is to broaden students' understanding of health and wellness by providing educational opportunities alongside sports activities and well-being programs. However, a key challenge is the limited resources in the Physical Education Department, with only one Physical Education Teacher (PET) and minimal mental health courses available. Although, faculty from other departments assist as team managers, the

shortage of dedicated staff in the Physical Education Department poses a challenge in meeting the diverse needs of students participating in these activities.

Various activities were organized throughout the session for enhancing and promoting physical and mental well-being of the students:

1. Workshop on stress mnagement:

Retrieve whopping 15,500 kg of plastic from Suketi rivulet

MUNISH SOOD

MANDI: To sensitise the masses and awaken them towards keeping their surroundings and natural resources clean, the National Service Scheme (NSS) volunteers of Vallabh Government College at Mandi (VGC) undertook a cleanliness drive along the basin of Suketi rivulet, a tributary of the Beas river, and fished out a mammoth 15,500 kg of plastic waste. The seven-day cleanliness drive titled "Heal Mother Suketi" was launched along its stretch from Rani Bain to the famous Panchvaktra Temple where the Suketi rivulet meets the mighty Beas.

Deepali Ashok, Assistant Professor of Botany and NSS programme officer at VGC, told TNIR that the aftermath of this year's heavy rainfall had left the riv-

erbanks laden with plastic waste, prompting them to organise this much-needed cleanup drive. "The meticulously gathered

waste during our ambitious cleanliness drive is a testament to the resilience and determination of the 95 NSS volunteers who worked wholeheartedly for a week and set an example for others to keep water bodies around them clean," she said.

The NSS officer, who was also the driving force behind the entire operation, said that as the volunteers progressed from Rani Bain to Mandi, the scale of the challenge became tough with each step, yet their unwavering spirit prevailed, even in conditions at points where standing on feet was a formidable task.

Another person who guided and led the NSS volunteers was Professor Suraj, who said the cause was

VMC Principal Prof Surina offered full support for the cause and appreciated the NSS unit by acknowledging the pivotal role they played. "The success of the cleanliness drive stands as a beacon of light, urging communities to unite in creating a lasting impact on environmental preservation. We are very much a part of it," said Deepali Ashok. She said that the NSS unit of VGC had always been associated with such social causes, justifying its motto which is "Not me, but you".

MANDI, DECEMBER 5

In a commendable initiative, the National Service Scheme (NSS) volunteers from Vallabh Government College, Mandi, organised a cleanliness drive from Rani Bain to Panchvaktra Temple along the Suketi khud in the district. The seven-day event kicked off on November 27.

This year's heavy rainfall had left the riverbanks strewn with a lot of waste, prompting the NSS to organise this drive. As the volunteers progressed from Rani Bain to Mandi, the challenges increased.

Programme officer Dr Deepali Ashok said 13 tonne plastic waste was collected during the drive. The municipal corporation provided garbage bags and vehicles for transporting the collected waste to the designated dumping site. The Red Cross Society also contributed to the cause by supplying essential gear such as gloves.

"Seraj Student Association, Nehru Yuva Kendra, VGC Mandi Eco Club, Rover-Rangers and NCC cadets collaborated with NSS volunteers in doing the job," she added.

4. Health camp:

On January 3, 2024, the NSS unit of VGC Mandi, in collaboration with Rotary Club Mandi, successfully organized a health camp at Village Panchayat Bhraun. This camp was part of the NSS unit's efforts to support the rural community, as the village was adopted by the unit in 2023. The camp provided free medical check-up for all villagers and students from the local primary school, while also promoting health awareness, with a focus on women's health and nutrition education for children. The health camp was attended by medical professionals, including a gynecologist who provided specialized care for the women of the area. Free health check-up was conducted for all villagers, including students from the primary school, covering general health screenings, blood pressure checks, and consultations. Approximately 30 villagers, including students, benefited from the free medical services provided during the camp. The gynecologist's presence ensured special attention to women's health, which is often overlooked in rural settings.

A special session was conducted by Dr. Deepali, Prof. Suraj Mani, and the volunteers for the primary school students, focusing on the importance of a balanced diet and maintaining a healthy lifestyle. The students were taught the nutritional value of different foods and how a proper diet is crucial for their growth and well-being.
