along with 165 students. 30 students participated in activities like Poster making, Collage making for which the judges were Dr. Monika Panchani, Dr. Smriti Thakur and Dr. Neetu Pathania, Dr. Anita Kumari respectively. A skit was also prepared by the students on sustainable Development. Ankita Thakur president of Eco-club welcomed the Chief Guest and all the dignitaries. After which Diya-lighting ceremony was done. Then Dr. Rakesh Rana speaker of the day threw light on what is mushroom cultivation how mushroom's are cultivated. What all are the benefits and how can it be a profitable agri-business. According to him cultivation of mushroom is wealth out of waste as it can be grown using plants, animals and industrial waste. It is rich in protein, fibres, vitamins and minerals and can be cultivated in 1 to 3 months. He also told us about the various government schemes and programme. After this refreshments was given to the students. Then the Chief Guest Dr. C.L. Chandan enlightened us on what is sustainable development. What all are its main goal and how can it be achieved. He told us it is the idea that human society must live and meet their needs without compromising the ability of future generation to meet their own requirements and needs. After this Dr. Tara Sen Thakur gave the vote of thanks to all the dignitaries present there.
