NATIONAL SERVICE SCHEME

REPORT 2024-2025

PROGRAMME OFFICER'S MESSAGE

It is indeed a matter of great pride and honor to be associated with the National Service Scheme (NSS), a platform that represents the spirit of selfless service in its truest form. In today's society, where recognition, rewards, publicity, and material gain often overshadow the value of silent contributions, NSS stands out as a beacon of hope—nurturing values of compassion, responsibility, and community spirit among youth.

The essence of service without expectation, as embodied in NSS, not only positively impacts the moral fabric of our students but also contributes towards the building of a more empathetic and harmonious society. Acts of service inculcate values that shape responsible and caring citizens. It is my firm belief that every act of service contributes not just to society, but also to our own growth—emotionally, ethically, and spiritually.

My message to all students is to wholeheartedly engage with NSS and take full advantage of this opportunity. NSS is not just a certificate or an activity; it is a medium for holistic development. In a time when job markets are competitive and degrees alone often don't open doors, being an NSS volunteer gives students the practical exposure to administrative functions, fosters leadership skills, and encourages an entrepreneurial mindset.

This experience builds the foundation for self-reliance and resilience. Volunteers learn how to strike a balance in life, which is the key to long-term success—not only in their careers but also in their personal and social lives.

Let us remember that true service is a noble path that silently builds both the individual and the nation. I encourage all students to join NSS, contribute meaningfully, and carry the torch of selfless service forward.
